IRELAND

Know the power of plastics

IRELAND IS BUILDING THE FUTURE OF PLASTICS MANUFACTURING

A GLOBAL HUB FOR HIGH-VALUE, PRECISION-DRIVEN SOLUTIONS

Ireland has evolved into one of Europe's most dynamic centres for advanced manufacturing. Backed by world-leading talent, innovation and investment, the country specialises in the design and production of **complex, precision plastic components** for the world's most **demanding industries**.

From life-saving medical devices to next-generation electronics, Ireland is trusted to deliver quality where **precision** is non-negotiable.

ATHLONE

At the heart of Ireland's manufacturing ecosystem

A STRATEGIC MOVE FOR GREATER IMPACT

Following a successful debut in 2025, Plastics Live Ireland 2026 marks **a major step forward** as the event relocates to the Athlone International Arena—a move driven directly by industry demand.

Following extensive feedback, with **over 75% of exhibitors and visitors** favouring a **central Midlands location**, Athlone emerged as the clear choice.

Positioned at the **heart of Ireland's manufacturing landscape**, the new venue unlocks **greater accessibility, improved logistics**, and the capacity to support the event's continued growth.

This is more than a venue change—it's a **strategic evolution**.

2–3 DECEMBER 2026

ATHLONE ARENA, IRELAND

MEDTECH

Ireland is one of the world's leading exporters of medical technology, with global OEMs relying on local expertise and precision.

LIFE SCIENCES

A strong ecosystem of pharmaceutical and biotech manufacturers drives demand for ultra-clean, high-precision components.

DRUG DELIVERY

From injectors to inhalers, Ireland manufactures critical drug delivery systems that require exceptional accuracy and consistency.

DIAGNOSTICS

Home to global leaders in IVD and diagnostic devices, Ireland sets the standard for quality, repeatability and regulatory excellence.

ELECTRONICS

Advanced plastics power the future of electronics, sensors, wearables and connectivity solutions.

PRECISION ENGINEERING

World-class tooling, automation and engineering talent enable the production of complex, high-tolerance components.

THE ADVANTAGE IRELAND DELIVERS

DEEP TALENT

Highly skilled workforce and technical expertise

INNOVATION

Continuous investment in R&D and new technologies.

GLOBAL CONNECTIVITY

Direct access to EU markets and major international partners.

QUALITY & COMPLIANCE

Uncompromising standards and world-leading regulatory capability.

SUSTAINABLE FUTURE

Driving circularity and reducing environmental impact.

TRUSTED BY THE INDUSTRY. BACKED BY REAL RESULTS.

“The quality of visitors exceeded our expectations.”

EXHIBITOR FEEDBACK

“The support from the event team made the entire experience seamless from start to finish.”
– Exhibitor

“We generated high-quality enquiries and valuable business opportunities.”
– Exhibitor

“The focused format meant we spoke directly with genuine decision-makers.”
– Exhibitor

VISITOR FEEDBACK

“A highly relevant event with excellent technical content.”
– Visitor

“The networking opportunities alone made attending worthwhile.”
– Visitor

“We’ll definitely be back.”
– Visitor

“Exactly the type of specialist event Ireland needed.”

– EXHIBITOR

“One of the highest-quality manufacturing audiences we’ve met.”

VISITOR

“Excellent organisation from start to finish.”

PRECISION IS THE NEW PRODUCTIVITY

The future of plastics
manufacturing isn't about
making more parts.

It's about making
better parts.

THE MANUFACTURING JOURNEY

TRADITIONAL PLASTICS PROCESSING

Proven techniques.
Established output.

PRECISION MOULDING

Enhanced control.
Improved consistency
and repeatability.

ULTRA-PRECISION MOULDING

Sub-micron accuracy.
Complex geometries.
Premium performance.

MICRO MOULDING

Small scale.
High precision.
Big impact.

MICRO- MANUFACTURING

Integrated processes.
Miniaturised solutions.
Limitless potential.

HIGHER ACCURACY

Tighter tolerances.
Better outcomes.

IMPROVED PERFORMANCE

Stronger, smarter,
more reliable parts.

GREATER EFFICIENCY

Optimised processes.
Reduced waste.

SUSTAINABLE BY DESIGN

Better for people.
Better for the planet.

From concept to component, **precision** unlocks productivity,
drives innovation and creates **real competitive advantage**.

IRELAND

EVENT SNAPSHOT

BE PART OF IRELAND'S LEADING PLASTICS EVENT

Plastics Live Ireland brings together the entire plastics ecosystem—from materials and processing to automation, sustainability, and innovation.

100+
EXHIBITORS

Leading suppliers and innovators showcasing the latest technologies and solutions.

1,000+
ATTENDEES

Industry professionals from across Ireland, the UK and Europe.

300+
SENIOR DECISION
MAKERS

CEOs, directors and influencers shaping the future of manufacturing.

35+
EXPERT SPEAKERS

Sharing insight across technical sessions, keynotes and industry panel discussions.

2
DAYS

Two days of high-value content, networking and business opportunities.

CONNECT. LEARN. INNOVATE. GROW.

REAL CONNECTIONS. REAL SOLUTIONS. REAL RESULTS.

2-3 DECEMBER 2026

ATHLONE ARENA, IRELAND

www.plasticslive.ie

WHY EXHIBIT?

CONNECT WITH THE BUSINESSES DRIVING IRISH MANUFACTURING

Plastics Live Ireland is the leading meeting point for the **entire plastics value chain**. Exhibit to connect with the right people, in the right place, at the right time.

REAL BUYERS.
Real projects.

REAL OPPORTUNITIES.
Real growth.

REAL IMPACT.
For your business.

MEET THE BUSINESSES THAT MATTER

OEMs

Original equipment manufacturers sourcing innovative materials, components and manufacturing solutions.

MedTech Manufacturers

Driving demand for high-precision, high-performance plastic components and cleanroom manufacturing partners.

Life Sciences

Companies advancing diagnostics, drug delivery and biotech solutions that rely on precision plastic technologies.

Packaging

Brands and converters seeking sustainable, innovative and high-performance packaging solutions.

Automation

Manufacturers investing in automation, robotics and smart factory technologies to improve productivity.

Toolmaking

Toolmakers and precision engineers looking for the latest technologies, software and materials to stay ahead.

Materials

Suppliers of polymers, additives and advanced materials shaping the future of plastics innovation.

Sustainability

Businesses driving circular solutions, recycling, biopolymers and more responsible manufacturing.

MEET DECISION MAKERS

Engage face-to-face with buyers, engineers and senior leaders who make things happen.

GENERATE QUALIFIED LEADS

Connect with a highly targeted audience actively looking for solutions and partners.

BUILD STRATEGIC PARTNERSHIPS

Strengthen relationships and create new collaborations that drive long-term growth.

LAUNCH NEW TECHNOLOGIES

Showcase your innovations to the right audience and accelerate your market impact.

GROW YOUR BUSINESS

Turn conversations into contracts and opportunities into measurable results.

BUSINESS DOESN'T STOP WHEN THE EXHIBITION CLOSES

The most valuable conversations happen beyond the show floor.

Plastics Live Ireland creates the right environment to **build connections**, **strengthen relationships** and **drive business forward**.

“

It's not just about who you meet at the event. It's about the **relationships** you build that last.

EXTEND THE VALUE. DEEPEN THE CONNECTIONS.

NETWORKING

Build meaningful connections with industry professionals, suppliers and decision-makers.

INDUSTRY DINNERS

Share insights, discuss challenges and explore opportunities in a more relaxed, collaborative setting.

RELATIONSHIP BUILDING

Strengthen partnerships, create new alliances and turn conversations into long-term collaboration.

**REAL RELATIONSHIPS.
REAL OPPORTUNITIES.
REAL RESULTS.**

Plastics Live Ireland is more than an exhibition – it's a platform for building the partnerships and connections that drive success long after the event ends.

**BE PART OF THE COMMUNITY THAT
KEEPS BUSINESS MOVING.**

OUR OFFICIAL
EVENT HOTEL:

RADISSON BLU HOTEL ATHLONE

TO ENHANCE THE OVERALL EXPERIENCE,
WE HAVE SECURED THE
RADISSON BLU HOTEL, ATHLONE
EXCLUSIVELY FOR THE EVENT.

**SEAMLESS
ACCOMMODATION**
for exhibitors
and visitors

**INFORMAL
NETWORKING**
beyond
show hours

**ON-SITE MEETING,
DINING, AND
SOCIAL SPACES**

**STRONGER
CONNECTIONS**
in a relaxed,
professional setting

Exhibitors benefit from easier logistics, earlier starts, and informal networking opportunities beyond show hours, while speakers and VIP guests enjoy a high-quality environment suited to both preparation and engagement.

The hotel's meeting spaces, dining facilities, and social areas naturally extend the exhibition experience, allowing conversations that begin on the show floor to continue into the evening in a relaxed and professional setting.
